Such requirements include, but are not limited to, the Bidder's qualifications, financial stability, and integrity. The Vendor Responsibility Questionnaire is required for contracts \$100,000 and over. OPWDD will require a complete Vendor Responsibility Questionnaire with your bid proposal if the contract resulting from this procurement is valued at \$100,000 and over. Vendors/not-for-profit provider agencies are able to file the Vendor Responsibility Questionnaire (VRQ) online via the New York State VendRep System or may choose to complete and submit a paper questionnaire. O. Health Information Portability and Accountability Act (HIPAA)

The Federal Department of Health and Human Services (HHS) established HIPAA Standards for Privacy of Individually Identifiable Health Information (The Privacy Rule). The Privacy Rule (45 CFR Part 160 and Subparts A and E of Part 164) provides the first comprehensive federal protection for the privacy of health information. The Privacy Rule is carefully balanced to provide strong privacy protections that do not interfere with patient access to, or the quality of, health care delivery. HIPAA has an impact upon how OPWDD and contractors will deal with protected health information of our consumers. Likewise, State Mental Hygiene Law § 33.13 requires disclosure of clinical records to be limited to that information necessary for health care providers to administer treatment.

P. General Duties and Additional Responsibilities

Maintain a level of cooperation with OPWDD necessary for the proper performance of all contractual responsibilities. Agree that no aspect of bidder performance under the Agreement will be contingent upon State personnel, or the availability of State resources, with the exception of all proposed actions of the bidder specifically identified in the Agreement as requiring OPWDD's approval, policy decisions, policy approvals, exceptions stated in the Agreement or the normal cooperation which can be expected in such a contractual relationship or the equipment agreed to by OPWDD as available for the project completion. Cooperate fully with any other contractor that may be engaged by OPWDD. Agree to meet periodically with OPWDD representatives to resolve issues and problems. Recognize and agree that any and all work performed outside the scope of the Agreement or without consent of OPWDD shall be deemed by OPWDD to be gratuitous and not subject to charge by the bidder.

Q. NYS Information Security Breach and Notification Act (NYS Technology Law, § 208)

“Contractor shall comply with the provisions of New York State Information Security Breach and Notification Act (General Business Law § 889-aa; State Technology Law § 208). Contractor’s negligent or willful acts or omissions, or the negligent or willful acts or omissions of Contractor’s agents, officers, employees, or subcontractors.”

(Private data is considered unencrypted when either identifying information or the data element is not encrypted or is encrypted with a key that has been acquired).

15. Consumer Safety Information

OPWDD provides services to individuals exhibiting Pica, which is a medical disorder characterized by an appetite for largely non-nutritive substances, e.g., cigarette butts, paper, gum, etc. Attention to the sanitation and cleanliness of the areas surrounding OPWDD's state operated program sites and residential buildings is very important to the health and safety of those we serve. Please ensure care is taken to properly dispose of cigarette butts and rubbish while on OPWDD property.

16. Consultant Disclosure

Effective June 19, 2006, contractors doing business with the State of New York in a "consulting" capacity will be required to file forms disclosing, by employment category, the number of persons employed by them and their subcontractors (if any) as a consulting firm or an individual consultant; the number of hours worked; and the monetary compensation received from the State of New York for work performed by these employees. Reporting will be required via the utilization of two separate forms – "Form A" and "Form B".

In general, however, Form A is to be completed once upon initial contract award and is used to report "planned employment". Form B is required annually and reports on "actual employment figures" for the preceding state fiscal year. The New York State fiscal year commences on April 1st and concludes on March 31st.

17. Evaluation Criteria: Method of Award

OPWDD will select the responsible and responsive Bidder that will provide the lowest Total Estimated Cost Per Season for each group. Awards will be made by group. A Bidder may bid on one or multiple groups and multiple contracts may be awarded. A Bidder may be awarded one or more groups. All sites included in a group are to be serviced by the winning Bidder.

Only proposals judged to be responsive to the submission requirements set forth in this IFB will be evaluated.

Should mathematical errors be made by the Bidder when calculating the Total Estimated Cost Per Season, the Amounts listed for Cost Per Snow Removal and Cost Per Ice Control will be the determining factor.

Alterations to the Cost Proposal Form may result in disqualification. OPWDD reserves the right to reject any and all offers

OPWDD reserves the right to request detailed listings of equipment and staffing, as well as proposed service routes from Bidder prior to award.

In the event of a tie bid, the award will be made by random selection.

Qualifications & Scope of Work

SNOW REMOVAL AND ICE CONTROL SERVICES

Statement of Work

The following specifications cover Snow Removal and Ice Control Services for OPWDD community sites in Saratoga, Warren, and Washington Counties as listed in "Exhibit A Site Listing".

Snow Removal and Ice Control Services detailed in the Scope of Work will be paid on a per event basis. Snow removal shall automatically commence at the accumulation of 3 inches at the contracted site. It is the Contractor's sole responsibility to ensure they are aware of when each site on this contract has accumulated 3 inches of snow. The House Manager (HM) or designee has the right to call for additional service as deemed necessary for safety concerns. Service shall be provided 7 days per week and 24 hours per day.

The residences are homes of a developmentally disabled population including some individuals who are medically or physically disabled, as well as some who are confined to wheelchairs. OPWDD residents often require an additional level of care regarding snow and ice removal due to functional mobility limitations.

The Contractor shall cooperate with House Managers and staff and will comply with the safety and security requirements imposed by the site. The Contractor's employees will adhere to all OPWDD policies and regulations, including but not limited to smoking, parking, etc.

Any conditions found that prevent Contractor from completing the work identified in this specification need to be discussed with the House Manager or designee.

Detailed Specifications:

It is extremely important during inclement weather that all efforts are made to have the homes and day program sites accessible and safe for the individuals and staff. The Contractor shall maintain the homes and sites to the specifications detailed below, keeping in mind the safety of the individuals and staff.

Please note: Staff change shifts at approximately 7:00 a.m., 3:00 p.m. and 11:00 p.m. Our individuals leave their homes by 7:30 a.m. and return at 3:00 p.m. **The driveways and sidewalks MUST be clear of snow and ice during their departures and arrivals.** Pre-treatment of surfaces (anti-icing), plowing, sanding, and ice control (de-icing) services should be coordinated with these times in mind.

I. SNOW REMOVAL & ICE CONTROL SERVICES

OPWDD residents often require an additional level of care regarding snow and ice removal due to functional mobility limitations.

A. Snow Removal

1. Snow removal services are to be as needed, however the house manager or designee has the right to call for additional service as deemed necessary for safety concerns.
2. The maximum allowable accumulation of snow or slush is 3 inches. Snow removal may be preceded by the spread of anti-icing materials and/or followed by de-icing for ice control when appropriate or needed.
3. Work shall be continuous until all plowing and clearing has been completed, in accordance with the needs of each site.
4. At the conclusion of snowfall events that exceed 3 inches, all maintained surfaces shall be cleared to bare pavement.
5. In the event of blowing and/or drifting snow and/or formation of ice; maintained surfaces shall be serviced to obtain a safe environment.
6. The basic movement and/or plowing of snow shall be planned by the Contractor, however, the following guidelines must always be adhered to:
 - a. **All exits, fire escapes, and fire hydrants must be cleared of snow.**
 - b. Snow accumulation is to be cleared from driveways, parking areas, sidewalks and/or ramps leading from the front door to the driveway; paths to and from all egress doors; walkways to storage sheds, oil fill pipe, generators, and/or evacuation areas; and the evacuation point, located on the property, but apart from the residence. All walkways/paths must be cleared no less than 36 inches wide; enough to accommodate wheelchairs.
 - c. Plows cannot be used to clear sidewalks or walkways.
 - d. Any **decks** that are designated as an egress path shall be cleared a minimum of 6 feet wide from egress point to the evacuation point as identified by the house manager or designee. Cleared snow is to be removed from the deck.
 - e. Snow shall not be pushed against houses, vehicles, buildings, building entranceways, sidewalks, exit doors, fire hydrants, trash receptacles, garage doors, shrubbery, trees, lamp posts, or emergency generators and fences
 - f. Banking of snow at the entrance to the roadway shall be limited in height to 2.5 feet, as not to restrict visibility.
 - g. Care must be taken not to damage or push snow on adjoining properties.
 - h. Mailboxes **MUST** be shoveled out to allow for mail delivery.

B. Ice Control

1. De-icer, as supplied by Contractor, is to be spread on all areas where snow has been cleared.

2. Contractor will be required to provide additional ice control services when requested by house manager or designee. Ice control may be requested due to an ice storm, sleet, melted snow that refreezes, or other applicable situations. Such a service may be a stand-alone process separate from a snow removal event.
3. Ice control will be accomplished by the application of pre-treatment (anti-icing) and/or de-icing materials. Contractor shall supply all appropriate Material Safety Data Sheets (MSDS) to the Plant Superintendent and to each contracted site's House Manager or designee.
4. **Ice control materials are to be provided by the Contractor** and applied at rates and densities sufficient to maintain sidewalks, roadways and parking areas reasonably free of ice and snow in an effort to minimize potentially slippery conditions.
5. **Sidewalk ice control** will be accomplished by the application of calcium chloride or magnesium chloride, also **provided by the Contractor**.
6. Should ice accumulate to a thickness that becomes unmanageable by chemical applications alone, Contractor may be required to break up and remove ice by other means.

II. ADDITIONAL REQUIREMENTS

1. Contractor must be available for call-in by the House Manager or designee if snow accumulation or drifting snow restricts travel on driveways, parking areas, or driveway exits. Response time shall be within two (2) hours of call. Contractor must provide a phone number for accepting calls 24 hours per day and 7 days per week. The Capital District DDSOO Business Office must be notified immediately of any phone number changes.
2. Contractors must use sufficient size plows and have commercial quality salt/sand/calcium chloride spreading equipment to remove snow and ice from the driveways and parking lots at the locations. Manually broadcast spreading with a shovel from the bed of a pick-up truck does not provide sufficient coverage to driveways and parking lots.
3. Only qualified operators and proper equipment will be used along with special efforts to prevent abuse and damage to surfaces of paved roads, walks, curbs, barriers, landscape effects, and grass areas. The Contractor shall be responsible for the repair of all damage to property, landscape, walkways, or any structures of the State or neighboring properties caused by the contractor's employees or equipment. Contractor is to adhere to local/state noise control ordinances/laws and is responsible to follow all State, local and municipal codes regarding the plowing of snow from OPWDD property and roadways.
4. Contractor's equipment shall not be left at the respective sites after snow removal for a specific storm has been completed.

Invitation for Bid

5. Contractor must possess and provide, at no cost to the State, appropriate licenses and permits associated with the provision of snow and ice control services.
6. Pursuant to the conditions above, the method of snow removal, equipment used, and plan of action shall be up to the Contractor's discretion.
7. OPWDD reserves the right to request detailed listings of equipment, staffing, service routes, etc.
8. The Contractor shall perform all services associated with this Scope of Work to the satisfaction of OPWDD. The quality of service will be subject to inspection by OPWDD. If the quality of service is not satisfactory, and it be deemed that the Contractor is not meeting the requirements of this Scope of Work, the Contractor shall be notified of those deficiencies and it will be the Contractor's responsibility to make the necessary corrections within 3 hours after receipt of such notice. In the event the Contractor does not correct the deficiencies within that period, OPWDD may terminate the contract.
9. In the event Contractor fails to remove snow, within the time frames listed above and OPWDD is required to procure services from another vendor, the Contractor may be held liable for any costs over and above the contractual price for the site(s) involved. In such a situation, the excess cost shall be deducted from Contractor's invoice for services rendered. If no payments are owed, Contractor will be invoiced for the additional costs incurred by OPWDD.
10. Sidewalks and access roads that are not maintained by Village, Town, County or State agencies must be cleared. Any fines received as a result of failing to clear these walkways are the responsibility of the Contractor.
11. The Contractor selected to do the work set forth herein shall not assign or sub-contract all or any part of said work without the express written permission of OPWDD Business Office Administration.
12. OPWDD will not be responsible for damage caused to Contractor's equipment during the course of this contract unless it can be shown that OPWDD was notified of a condition not covered under this contract and did not make arrangements to correct it in a timely fashion.

III. Contractor Damages

The Contactor will be required to repair/replace damaged property within 30 days after weather permits. If the damage is not satisfactorily repaired within 30 days after weather permits, OPWDD shall have the repairs made and will bill the Contractor or reduce payment for the total cost incurred as a part of OPWDD's repair effort.

1. An annual inspection of areas to look for damages done during snow removal will occur in April of each year. The Contractor shall be responsible for, and will be notified by OPWDD, of all damage to buildings, curbing, walkways, fences, signs, trees, shrubbery, etc. as it is discovered until the end of the snow season. At the end of the snow season, the Contractor shall be solely and wholly financially liable for any reported damage and shall comply with the instruction of the Plant Superintendent in returning the property to its pre-season condition. The Contractor shall not be responsible for damage from snow piled in the designated snow storage areas.
2. If damage to lawn occurs, the Contractor must repair by replacing sod, topsoil, and seed around the perimeter of sod; or use screened topsoil, seed, and Penn mulch, re-rake and roll, to return area to pre-damage condition.
3. The Contractor must complete all damage repairs by April 30th of the calendar year. If the repairs are not completed by that time, OPWDD may find an alternative Contractor to complete the repairs. The cost for these repairs will be billed to the Contractor that caused the damage or reduce payment for the total cost incurred. Failure to complete the snowplow damage repairs by April 30th may affect remittance of any payments owed, cause possible charge backs to the Contractor, and may affect the continuation of the snowplow contract.
4. If Contractor causes damage to a staff or State owned vehicle, the Contractor must notify the House Manager or designee immediately, or in the event it happened after hours, as soon as possible the next business day. Contractor will be responsible to report the damage to their private insurance company and exchange insurance information with the staff person if it was a personal vehicle.

IV. VEHICLE REMOVAL

Under no circumstances shall the Contractor move any staff owned or State-owned vehicles. It is highly recommended that the Contractor call each site 30 minutes prior to arrival to give staff time to move the vehicles. It is to be noted that there may be occasions when staff are unable to move vehicles due to staffing levels. The Contractor is to do the best they can, given the circumstances.

V. NON-COVERED SERVICES

Only OPWDD or Capital District DDSOO's Business Office Administration, on a case by case basis, may authorize snow removal with heavy equipment and the push back of snowbanks, etc. These services will be considered outside the contract and must be billed separately. The site's current Contractor will be asked if interested in providing a quote for this additional service.

If the site Contractor decides to provide a quote, and is awarded the work, (s)he will be responsible for all plow damage repairs at the end of the season, including any that may occur due to the snow movement process.

If the snowplow Contractor decides not to provide these services and/or another Contractor is procured, safeguards will be put into place to clearly outline each Contractor's responsibilities in case there is substantial damage caused by another Contractor. It will be the responsibility of the other Contractor to repair any damage caused by his/her services.

Cost Proposal Form

Directions: Bids for each group are determined by Total Estimated Cost Per Season for the group. Contractors may provide quotes for one group or multiple groups. All sites included in a group are to be serviced by the contractor awarded the contract for that group. The lowest responsible & responsive quote for each group will be awarded the group.

For each group you wish to provide a quote for, place a Cost Per Snow Removal and Cost Per Ice Control for every site listed. Add the prices in each column and place the totals in Sum of Each Service (C). Multiply these sums by the Estimated Number of Events (D) and place this amount in Cost Per Season. Add the Cost Per Season for each service together to get the Total Estimated Cost Per Season. Record all Total Cost Per Season amounts for each group you are bidding on the Cost Proposal Summary and Signature Page on Page 33.

Do not alter the Cost Proposal Form(s) in any way or your bid may be disqualified. Please see page 18, Section 17. Evaluation Criteria: Method of Award for more information.

Please note that the groups for which bids are being requested are Groups 10, 11, D, E G, H, I and J.
